our Tree of Life philosophy

Tree of Life is a Christ centered multicultural urban school. We are evangelical in nature and desire to educate a broad range of children who might not normally have the chance to attend a Christian school. Because of this, tuition is based on 5% of total family income.

We believe God is reality and the Bible is significant to all of life. We teach students to follow Christ. We teach students the fundamentals while being sensitive to their abilities and interests. We make education safe, meaningful, and exciting. We focus on communication, sciences, and the arts. We teach students to think creatively, worship enthusiastically, analyze critically, live wisely, and love unconditionally, so that they may transform the world around them for the glory of Almighty God. We develop students that love to learn. We prepare students to be global learners for the rest of their lives.

We at Tree of Life believe that education is most successful when the family environment is supportive of learning. For this reason, parents will be required to make a service commitment to the school on a regular basis.

I have read & I understand student enrollment requirements. I have disclosed & provided all relevant student information, including special education & special services reports. (Neglecting to report will result in re-evaluation of enrollment.)

estimated gross family annual income:

enrollment process

There is no application fee, all are welcome to apply. Students who have all necessary paperwork submitted are evaluated & considered during open enrollment in **mid-June** & again in **mid-August**. We will contact you by phone & email prior to these entry ramps.

(Applications will be kept on file for one year; you may reapply annually.)

Thank you for your interest & your prayers.

God's blessings over your family!
